Water project-thanks

We are very blessed as **St.Nina Orthodox Mission community** for water project. The water project has been is **sponsored by Action2day** under the directorship of our dedicated and loving mother Veronica. Indeed **water is life** and this is what this project has done to this community. This is a great miracle to have happened to people around this area. May God bless mother Veronica and your Action2Day team for this kindness!

(Fr Makarios, St. Nina Community Tharaka Nithi)

Education project-thanks

Education is very important to us; it is the key to better life.

Girls from our community (Samburu) can learn about **their rights and understand harmful practices like FGM**, they can get better Jobs through education and come to help their parents, siblings, families and community at large.

Most of us are very **poor background**; sometimes we only manage to take children up to primary level and stop there because of lack of school fees. We really appreciate Action2day support to us and we **thank all donors** for the precious help.

(Sandra, Umoja-Unity Community, Samburu-Kenya).

THANK YOU

for your support and encouragement this past year, and for believing in our mission!
